

## MADISON'S TOBACCO ACREAGE WAY OFF

Figures Compiled By S. A. D.  
Jones Show 38 Per Cent De-  
crease For This Year's Crop

Madison county's tobacco crop this coming season bids fair to be only a little more than half the crop of last year. Figures that are pronounced as accurate as is possible to obtain, have been compiled by S. A. D. Jones, local tobacco expert, which shows that the crop for this year will be less than last year by about 38 per cent. In other words, Mr. Jones by a careful survey of the tobacco production of the county, finds that farmers last year who had in 2,252 acres of weed, this year have only 1,412. He then figures that Madison's tobacco production of over 8,000,000 last year will amount to only about 4,500,000 this year. Mr. Jones made up these figures for his own information as well as for the Louisville Tobacco Warehouse Company, which is making a survey of the state's tobacco acreage.

While he speculates largely in tobacco himself, and his business would undoubtedly be hurt if the tobacco growers make a success of the proposed co-operative selling plan, Mr. Jones is big and broad enough to say that he believes that it is the only thing that can prove of real benefit to the tobacco growers. He has studied the plan carefully and declares that it appears to offer to the farmer the same advantages of marketing their products that other large producers have.

The exact figures as compiled by Mr. Jones of the tobacco acreage for Madison county, last year and this year, are as follows:

## SPEEDWELL

Mr. Orville Coomer, of Speedwell, entertained about 20 of his friends Saturday, July 23, with a picnic party near Roselyn on the Red river, about 65 miles from here. The party motored through, leaving Richmond about 7:30. Beyond Winchester, thru Clay City and Stanton and on to the Red river, everyone enjoyed the beautiful scenery. Everyone had a nice and well filled box of lunch and all being dusty and hungry, certainly did enjoy it. Guests of the party were Misses Bush, Edith Broughton, Lucille Rice, Margaret Jones, Clay Duncan, Bertha Hord, Beulah Flannery, Bernice Black, and Miss Maupin. Messrs. Orville and Burke Coomer, Carl Todd, Herbert Rayburn, William Black, Earl Flannery and John Hord. Several of the party had bathing suits and went in bathing and had a delightful time. Mrs. Dr. Coomer chaperoned the party.

## Crops Look Bad

Mr. Hub Muir, who runs daily between Danville and Louisville, says that he never saw crops in such bad condition; they are literally burnt up. He says the green groceries are very scarce in Louisville also.—Danville Advocate.

## NEVILLE WITT TAKES HIS FATHER'S PLACE

His many friends here will be interested in the following from the Cynthiana Democrat: "Mr. Neville Witt is manager of the Home Ice Co. at Cynthiana and Palomoth succeeding to the place filled by his father, the late Everett Witt, from the time the business was established. Mr. Witt is a young man of fine business qualifications who was here for several months in the Harrison Deposit Bank and friends are gratified that he has returned to the city. His mother, also is again welcomed to Cynthiana."

## GUN BATTLE ON PINEVILLE STREETS

One Man Killed and Three In-  
cluding Police Chief, Are  
Badly Shot Up

(By Associated Press)  
Pineville, Ky., July 29—There is considerable tension here over yesterday's tragedy in which Jack Gilbert, a mountain gunman, was killed by chief of police Duster Roberts, after Gilbert according to witnesses, shot at James Bailey. Bailey was shot in the arm and John Stamper, 19, a bystander, seriously wounded. Roberts' leg was shattered.

Authorities said today, however, no further trouble is expected. The only arrival here today of either faction was young Stamper's father. He is at the bedside of his son, who is still alive, but his condition is said to be serious.

Pineville, Ky., July 29—One man was shot to death and three others were wounded during a battle in the business section of Pineville, a square from the court house Thursday night. The shooting, which came without warning, was an aftermath of the White-Bailey feud, and one of the wounded men is a brother of John Bailey, who is charged with the murder of Beverly White in Clay county last fall and who recently was held in the Jefferson county jail for safekeeping.

The victims are:  
Jack Gilbert, 32, mine worker, Knox county, near Clay county, shot through heart and instantly killed.  
Buster Roberts, chief of police, Pineville, leg shattered by pistol shot.

Jim Bailey, 35, mine worker, near Clay county, shot in arm.

John Stamper, 17, mine worker, Barbourville, son of Baptist minister and candidate for county judge in Knox county, wounded seriously in the side. He may die.

Following the fighting, Corb Lewis, Knox county, was arrested and charged with carrying concealed a deadly weapon.

Gilbert and Lewis, who were charged with the murder of Eli Lee, in Barbourville last March, drove into Pineville Thursday afternoon. About the same time, Bailey and Stamper drove in from Wallins, Harlan county, where they are employed.

It is said that the interest of Beverly White's brother in the defense of these two men led to bitter feeling of these men against the Bailey family and fanned the flames of the feud which resulted in the deaths of John and Beverly White.

Bailey was sitting in his automobile Thursday afternoon alone when, according to witnesses, Gilbert began firing at him without warning. Gilbert emptied the contents of one pistol and was reaching in his pocket for another when the police chief took a hand. Chief Roberts' first shot felled Gilbert with a bullet thru his heart.

In the meantime, Bailey, aroused by the firing and, apparently not certain which of the men had wounded him, opened fire. It is believed it was a bullet from his pistol that tore its way through the leg of the chief of police, though witnesses were not certain on that point.

Stamper, who was in the automobile, was on the operating table late last night, and it was said his wounds may be fatal. It has not been established whose bullet struck him during the excitement of the unexpected battle. Stamper had always borne a good reputation.

Lewis, the companion of Gilbert, following the affray, called on County Judge VanBever and asked for protection. He said he wanted a guard to accompany him back to his home as he feared trouble from friends of one of the injured men. On searching him, however, two loaded revolvers were found in his pockets and he was placed in jail.

Another killing, the police reported last night, took place when Lucy Denny, wife of Sil Denny, shot and instantly killed Mrs. Robert Bingham. The police took Mrs. Denny under arrest to jail. Mrs. Bingham was shot five times.

## Will Appreciate Your Vote and Support for the DEMOCRATIC NOMINATION FOR Commonwealth Attorney

in the Primary, Saturday, August 6, 1921

Rotation in office is both Democratic and best for the people. Trusting that I shall not be considered presumptuous in tending my services to fill this high office "so ably filled by my opponent" for the past 30 years, at which rate only three of Kentucky's sons could perform the duties of this position of honor and opportunity in a century.

### JOINT SCHOOL PLANT

Kansas Town Has Most Elaborate Affair of the Kind.

It cost \$225,000 and Pupils From Seven Districts Also Transferred in Motor Buses.

Garden City, Kan.—What is described as one of the most elaborate and complete consolidated school plants in America has just been dedicated at Holcomb, seven miles west of Garden City on the western Kansas prairie. The plant cost \$225,000. Seven school districts joined to construct the single plant where the pupils may have the advantage of a city school, including manual training, domestic science and scientific training of several varieties.

Six one-room schools of the old type and a three-room school at Holcomb were abandoned in favor of the consolidated project.

The pupils are transported to the school by motor buses driven by teachers, who receive \$20 a month for this extra work. The buses have a capacity of 30 to 40 pupils each.

The Holcomb consolidated school district has an area of 124½ square miles. The school population at present is 375. The new plant has a capacity of 605 grade and high school pupils.

The consolidated school group consists of seven buildings in all, with others to be added later, a first-class farm for instruction in practical agriculture, and a large athletic field.

In addition to the main high school building and a grade school building, there is a large garage for housing the motor buses, a cottage for the superintendent, and a cottage for the janitor.

### FUNERAL UNDER HUGE TREE

Services for Illinoisan Held in Shade of Immense Hackberry He Owned for Forty Years.

Assumption, Ill.—Forty years of care for a hackberry tree that grew in his front yard provided Dr. R. W. Johnson, who died here, with one of the most unique places for a funeral service that this state has ever provided. His request was that the funeral be held in the old tree's shade.

Hundreds of friends who gathered at the funeral from Christian and nearby counties found that the tree's immensity was not exaggerated. It rises about 300 feet in the air and spreads over the entire yard in which the homestead is located.

Its size has balked all efforts of friends of the late Doctor Johnson to measure it with exactitude. Both kites and toy balloons have been used without satisfaction.

Seven years ago the tree's height was over 225 feet, and it is said to have grown phenomenally since. Old settlers of Christian county say it is about the same age as Doctor Johnson, who died at the age of seventy-one. Forty years ago he acquired the property upon which the tree grew, and built a home. It had already been growing then for 30 years, they said. Under the doctor's care it has become not only a landmark, but one of the most beautiful and immense trees of the state.

Doctor Johnson was one of the pioneer physicians of central Illinois, having practiced in Christian county 45 years.

### WANTS TO LOSE HIS LIONS

Trainer Asks Court to Rid Him of Animals Taken For Debt.

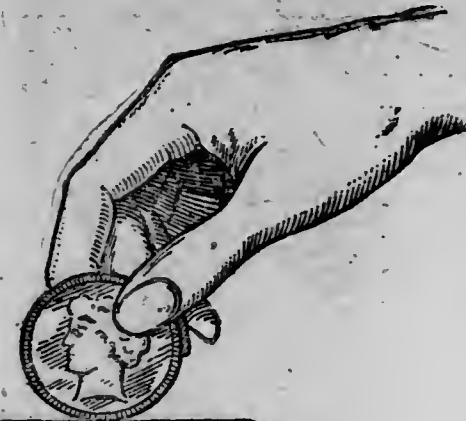

New Haven, Conn.—Instead of having a white elephant on his hands, Felix O. Rustand, a former circus and Coney Island animal trainer, has lions, but he insists that there is no difference in respect to the consequences.

Rustand attached the lions and took them from Bridgeport to his Short Beach shore home to satisfy a claim against Mrs. Irene Castello, a performer, who was exhibiting them. He appeared before Judge John Booth to seek relief through a court order, alleging that it was costing more to keep the animals than to lose the claim against Mrs. Castello, as the lions were "eating their heads off." He insisted that they should be classed as "perishable," subject to emergency court orders. Judge Booth reserved decision.

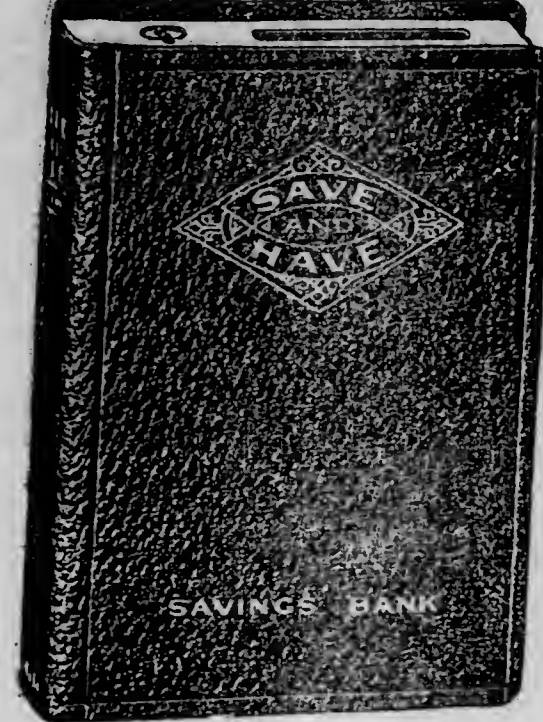

### Tests Wine in Divorce Case, Asks Nominal Fee

Omaha, Neb.—J. T. Bohan, Omaha real estate man, was required to sample 700 gallons of old wine. Acting as "referee" in the divorce case of Mr. and Mrs. Charles Henon, he was requested by attorneys to ascertain if the wine was in good condition. In the divorce case Henon, according to attorneys, had agreed at the time of an out-of-court property settlement to take "everything in the cellar." The wine, which the Henon couple had made together, was five years old. Some of it was seven years. Bohan reported the wine in "excellent condition" and stated that his fee would be "nominal."

Miss Lucy Williams has returned from a visit to her sister, Mrs. Orville Boone, at Germantown, Ky.

## SAM HUNTER WOULD MAKE A GOOD JAILER

Popular Democrat Asking His Friends To Help Him Out Primary August 6

In presenting to the voters of Madison county a brief sketch of the candidates who are seeking election to offices at the forthcoming Democratic primary, the

work would be incomplete without special reference to the candidacy of Sam Hunter, well and favorably known throughout the county, who is asking your vote and influence to the election to the office of jailer.

Mr. Hunter is no stranger to the voters, for he has spent his entire life among those in whose hands his election rests. He is confident of election and is willing to leave the choice of the candidates in the hands of the voters. That he is worthy of filling the position; that he is a man of nerve and determination to do his duty in all matters, irrespective of conditions and circumstances, is nothing new to the thousands who know him, and those who respect him and for whom they have the highest regard.

Few men have a bigger heart in them than has Sam Hunter. He deprecates the misfortunes of his fellowman and is willing to divide his last crumb with the hungry and needy. Although his circumstances are greatly impoverished and he is anything but a rich man. He needs the office of jailer which he would make as a home for his aged mother and himself.

And in asking your support he feels that he can give the county a satisfactory administration; that there would never be an occasion to regret his election by any man or woman who voted for him. His kindness of heart would mean a humane discipline of the inmates of the jail, and his attentiveness to them would elicit from everyone a feeling of gratitude and consideration as few men could claim as a reward for their care.

Mr. Hunter was born and reared in Madison county and has been forced to work for a livelihood all his life. He was employed by Jailer Burgess to assist him at the jail on account of the turnkey being absent. During a recent session of court he was diligent in his duties and faithful to the discharge of his trust. Later Jailer Burgess was taken sick and had to leave the city for treatment and was gone four months, but the management of the affairs of the county jail went on as usual under Sam Hunter's custodianship.

It was at this time that his friends persuaded him to announce his candidacy for county jailer. It would not be therefore, a new and untried position with him. Something has been said about the escape of the prisoners from the jail, and a few were inclined to lay the blame on Sam Hunter, but in justice to him it should be stated that the grand jury investigated the escape of the men and exonerated Hunter, laying the blame on the insecurity of the jail, and not on the turnkey.

Sam Hunter would give the affairs of the jail his personal attention, and that he would give a faithful, efficient and conscientious administration cannot be doubted by anyone who knows the man. He is urging his friends to go to the polls on Saturday, August 6, and cast their votes for him. He will appreciate their support and influence; he feels worthy of the place and would make a trust worthy and competent jailer. A better man would be hard to find.

## Special Sale of Coldstream Durocs

At Coldstream Farm, August 16, 1921

This sale having been decided on, nothing is to be left undone to make it a success from the bidder's viewpoint. A goodly number of our choicest young sows will go under the hammer—beautifully bred, massive individuals, each weighing 500 lbs. or more.

The sows are all bred for early September farrowing—mostly to Walt's Great Top Col., a splendid young boar, standing, as a senior yearling, 44 inches high, on a 10-inch bone, with 83 inches over the back between the eyes and root of tail.

Terms if Desired—Terms will be arranged for those who so desire and can furnish satisfactory bank references. Remember the date—also the fact that adverse market conditions for us mean advantageous transactions for the purchaser. For particulars, address

Newport Woman Just Had To  
Live on Milk Diet Is Now in  
Splendid Health

"The splendid health I have had  
for the past four years I attribute  
to Tanlac and nothing else," said  
Mrs. Jennie Williams, 141 Four-  
teenth and Central avenue, New-  
port, Ky.

"I had been suffering from  
stomach trouble for at least four  
years before I began taking Tan-  
lac, and I suffered so much after  
meals I just dreaded to go to the  
table. Often I went as long as  
two days at a time without eat-  
ing a morsel of food. At last,  
was put on a milk diet, but in  
spite of this and trying all sort  
of medicines I continued to grow  
worse and was spending half o  
my time in bed—up one day and  
down the next.

"This was my condition when  
I started taking Tanlac. Tanla  
gave me an appetite, put my stom-  
ach in first class condition, an  
made me gain twelve pounds. My  
nerves quieted down and soon  
was able to sleep all night long  
without waking once. Not only  
that but it gave me a feeling o  
strength and buoyancy that I ca-  
hardly describe. As I said this  
was four years ago and from that  
time to this I have felt fine.  
I think Tanlac is the greatest me-  
dicine man ever made."  
Tanlac is sold in Richmond by  
Stockton and Son and leading  
druggists.

## Women Get Religious Suffrage

Four years ago the Southern Baptist church in its annual convention, by an overwhelming majority, passed a resolution giving women the right to serve in all of its local councils and as members of the most important boards of the church, in other words, full suffrage. A month ago the American or Northern Baptist church in session at Des Moines, Iowa, established a precedent when Mrs. Helen Barrett Montgomery, of Rochester, N. Y., was chosen president, receiving 930 of the 1,140 votes cast. Mrs. Montgomery was licensed as a minister in Rochester in 1892. She was elected president of the Woman's American Baptist Foreign Missionary Society in 1913, and in 1917 was made president of the National Federation of Woman's Boards of Foreign Missions, serving one term. She is known to many as a writer of very interesting books on subjects relating to foreign missions.

## GOLDEN PLEDGES STRICTLY BUSINESS

Will Seek To Keep Richmond At Forefront—Friends Rallying To Him

In casting about for an efficient and capable man to fill the office of Mayor of Richmond, the many friends and ardent supporters of Mr. Robert Golden were not slow in choosing him as their preferable candidate. The man they felt sure would be the winner in the August primary, and in his election give the people a mayor who would be fearless in his duties, progressive in his ideas and trustworthy in office.

Mr. Golden was born and raised in Madison county. Thirty-four years ago he moved to Richmond where he has continuously resided. In appreciation of his sturdy qualities, forceful leadership and the interest he has always taken in the development and material progress of the town, he has been elected as a member of the city council for eight years straight, the record of no other councilman can exceed Mr. Golden's, showing as it does the high esteem in which he is held by his constituents and the citizenship generally.

If elected Mayor of Richmond, and his friends already have predicted for him a big majority—Mr. Golden promises to see to it that the city gets value received for every dollar spent on improvements and in all municipal departments; that he will have personal supervision over the work, co-operating with the commissioner and other officers in their respective duties. The next four years he would spend as "a servant of the people," advancing Richmond's causes in every way possible. He would also endeavor to lower the taxation rate, yet keep the city clean and up-to-date throughout. The present inadequate drainage system would be improved and all unhealthful rubbish and garbage eliminated. Under his administration he would see that the law was enforced, that peace and order might dominate Richmond.

Mr. Golden is a strong believer in the ladies' prerogative to vote, and if he is chosen the next Mayor of Richmond, he proposes to have a Health Board, composed of some of the best business women of the town two from each ward, and the power be given them to elect the Health Officer. "If the voters will stand behind me and give me the reins of the city government for the ensuing term," said Mr. Golden, "I will give them an administration that will meet with their approval in every respect. I will set things right, and bring about a betterment of conditions that will appeal to every man and woman in the town."

During the eight years in which Mr. Golden has served on the council he has demonstrated his ability, his qualifications for enacting laws for the betterment of the city, and for a more prosperous community. Possibly no man in the town was more conspicuously identified with the undertaking of making Richmond dry than Mr. Golden. He believed in the principle of prohibition and exerted his best efforts to bring about the change. He has the will power and the initiative. He feels that he can serve the people's best interest as Mayor, and not that they should serve him. Mr. Golden's candidacy was endorsed by ex-Mayor Woods in letter published in the Daily Register some weeks ago and with which the public is familiar.

On account of Mr. Golden's association in business having been confined to his room for some time by sickness, he has been unable to see all the voters; hence, he is asking that everyone who is interested in a progressive administration to rally to his support and elect him Mayor of Richmond at the forthcoming Democratic primary, Saturday, August 6th. 177 3

## Summer Complaint In Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell, of Butler, Tenn., says: "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose." July

## Milk Prices Increased

22 Per Cent In St. Louis. St. Louis, July 29.—An increase of from eighteen to twenty-six per cent in the price of milk sold to St. Louis distributors has been made by the Illinois Cooperative Milk Producers Association, supplying the city with most of its milk. Milk is increased from 19 1-2 to 23 cents a gallon and from \$1.09 1-2 to \$2.12 a hundred pounds. The Association attributed the cause to increased production costs.

A commercial boom has started in Lancaster, N. H., since President Harding has decided to spend a few days there.

## Farmer Boys and Girls To Contest For \$300 Prizes

At least thirty counties will be represented in the Boys and Girls Livestock Judging Contest to be held at the State Fair, for which prizes totaling \$300 have been offered.

More counties are likely to enter within the next few weeks, according to M. L. Hall, assistant state club leader.

Great importance is attached to this event at the State Fair as it is to be an annual event fostered by the Louisville Livestock Exchange, and the winner of the State Fair contest will represent the state in the Junior Judging contests to be held at the International Livestock Exhibition each year.

The boys and girls competing so far have shown unusual alertness and excellence in their preliminary contests. Many of the boys and girls have been at the summer camps where they have

## Perhaps She Wanted the Preacher to Watch It, Too

Junction City, Ky., July 29.—An incident of unusual comment at the communion services at the Christian church was the placing of a clock on the communion table by a woman agent for that congregation to have an opportunity to see it. One of the elders removed the clock from the table, but after that the communion agent restored it to its place before the pulpit.

Governor Len Small granted a reprieve to Carl Wanderer until September 30. Wanderer was to hang Saturday for the murder of his wife and a ragged stranger.

A forest fire spreading down the Canadian coast swept out the town of New Haven Thursday. The inhabitants escaped.

Pete Cooley, a 17-year-old boy, was killed in Lexington Thursday, being run over by an automobile after a fall on a oiled street.

## Loss Of Appetite

As a general rule there is nothing serious about a loss of appetite and if you skip a meal or only eat two meals a day for a few days you will have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before the second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it. July

HENRY BAUGHMAN'S

## SPLENDID 197 ACRE FARM

SUBDIVIDED

Live Stock, Etc., Also 2 Small Farms At Public Auction On The Premises

Wednesday, August 3rd 10 a. m. rain or shine

This magnificent estate is located 2 1-2 miles from Hustonville on the Bradfordsville turnpike. Everybody knows about the land around the good town of Hustonville—no better in the state

When Mr. Baughman bought handsome property about a year ago for a permanent home little did he dream at that time it would ever be on the market again. But man proposes and God disposes. Since then he has lost his father and it has made a great change. He has already made arrangements with the heirs to take over the home place of his father, J. K. Baughman, and for this reason only is disposing of these valuable holdings at a sacrifice to put the money in the "Old Home Place" around which so many sweet memories and sentiments of by-gone days cluster. It will be an ABSOLUTE SALE.

**IMPROVEMENTS**—Elegant two-story residence of ten rooms, fully equipped, bath room, halls, three porches, large cellar, or dairy, right at door in which things were never known to freeze. Besides the water works system in this home, there is also an Acetylene light plant. Tenant house of three rooms, small barn, two large stock barns, cow barn, jack barn, buggy house, garage, mill shed, cribs, silos and all kinds of outbuildings, including stock scales.

**FINE WATER**—Three everlasting springs, cistern at house medicated water in porch, pond, concrete troughs, etc. In fact enough water for the whole community at any time during the year and the town of Hustonville thrown in. Splendid orchard of about 100 trees, good variety of apples, pears, peaches, cherries, etc. Fencing A-1.

All of this farm lies exceedingly well—a regular tractor farm. Prior to Mr. Baughman's purchase last year it had been in the Carpenter family for over 45 years. It had been carefully farmed for forty years by Mr. Calvin Carpenter. It has been petted and pampered. Is now in the highest state of cultivation and ready to punch and make good money. All in grass except 56 acre in corn, 10 acres tobacco. The best tobacco crop in Lincoln, Boyle or Garrard counties. By their fruits ye shall know them. Just look at the growing crops on this good dirt and judge ye. YOU had better join the crowd and attend this sale. They will be there and one look at this HOME will make your mouth water and long to call it your own. It will be subdivided into tracts to suit the purchaser. The farm is cut into ten fields besides the numerous lots. Beautiful approach, fine shade, lovely location for a HOME, an ideal place to live, splendid neighborhood, etc. This place is all we claim for it and more. Written words cannot do it justice. You must see it to appreciate what it really is. We invite the closest inspection, for we know the more you look the more you will bid. Personality consists of live stock, etc.

Everything about this property is in apple-pie order. Mr. Baughman has spent a lot of money putting in hardwood floors and other improvements. He knows that he has got to lose all of this and a pile of money on the farm. Let come what will you will always find Henry Baughman a MAN—his words is always his bond and he is game to the core. He invites you to this sale and asks YOU to say what it is worth and he is going to make you a deed.

At the same time and place we will sell for him the High Dollar a 30-acre tract adjoining the above tract. All in grass. Has a good ten-acre tobacco barn and everlasting water.

Also what is known as the "Crisp Place," containing about 56 acres one mile off Bradfordsville pike. Every acre of it is hempt and tobacco land. All of it in blue grass and timothy except six acres in corn. It has been in grass for years and years. Well watered and fenced. Small orchard. House of six rooms, new porch, halls, etc., cistern at door, good stock barn and four acre tobacco barn, and all other necessary outbuildings. A dandy little home for some one.

**ABSOLUTELY FREE**—To the person guessing closest to what this property will bring we will give \$10.00 in gold and to the person guessing next closest \$5.00 in gold.

Possession January 1, 1922. Terms liberal and made known on day of sale. Dinner on the ground. Look this property over and meet us there on sale day—WEDNESDAY, AUGUST 3, at 10 a. m., and pound your bids at her.

For full particulars, blue prints, etc., write or phone either the owner, Henry Baughman, Hustonville, Ky., or

## Facts About Our City

1. Two primary considerations present themselves to the voter in his choice of city officers: (a) ability and integrity; (b) past achievements.

Richmond is a \$4,500,000 corporation and nobody but a proven successful business man should be placed at its head.

2. Mr. L. P. Evans, standing for re-election, is a man of recognized integrity and earnestness, successful in his personal business affairs, and himself a property owner and a substantial taxpayer.

3. Aside from giving us four years of efficiency in the routine of City Government, the big achievement of Mr. Evans' past administration as Mayor, was the building of our sewerage system and our fine new streets. By this work our town has at last lifted itself out of the mud and dirt and taken its place beside its neighboring and rival towns.

All well informed persons know that no town or city in the world, from the wonder cities of New York and Chicago down to Winchester, Paris, Danville and Richmond, has ever achieved growth in population, wealth or comfort except by the expenditure of money for civic improvements. Those cities which do not make such expenditures, merely for the purpose of having low taxes, remain back-woods communities. Richmond had been that long enough.

4. No thinking taxpayer objects to paying taxes provided he gets value received. Because of the energy, foresight, and hard work of Mayor Evans, we have gotten full value received on our streets and sewers. Both the street and the sewer construction were done at lower unit cost than any similar work done in any other Kentucky cities within the past two and a half years.

Neither the sewerage contractor nor the street contractor made a dollar out of the work. Not a dollar was wasted anywhere.

The funds with which this work was paid for, were procured at less than 5 per cent while other Kentucky cities were and are paying 6 per cent in addition to bonuses to the contractors to do the financing.

Our finished work, under almost a year's use, shows itself to be almost a perfect job.

5. City tax rates have, of course, been increased for the purpose of paying off the \$150,000 bond issue which the taxpayers authorized the city administration to incur, but by the plans worked out by Mayor Evans, embodied in the city's ordinances, the tax rate for street and sewer improvements gradually decreases each year during the life of the bond issue. \$20,000.00 of the bond issue has already been paid off and the tax rate for this purpose has already been reduced from 45 cents to 35 cents.

Aside from increased requirements of the School Board over which the Mayor has no control, the city's tax rate is just 32 cents on the \$100 more than it was in 1916. If the School Board's requirements were the same as they were in 1916, the city's tax rate would now be \$1.50 instead of \$1.85, and if both the increase for school purposes and the increase authorized by the vote of the people for streets and sewers were deducted the present rate would be \$1.22 as against \$1.25 in 1916.

What more can we ask or expect from our city's chief officer? Would we have Richmond go back to where she was eighteen months ago? Will we re-elect Mayor Evans, who has accomplished something and who has proven his ability, or will we elect a person of unknown and unproven capacity?

## KENTUCKY WESLEYAN'S BRIGHT PROSPECTS

(By Associated Press)  
Winchester, Ky., July 29.—Kentucky Wesleyan college will open its fifty-second year September 6 with an enrollment that is expected to reach 500, with most of the students being from Kentucky and Tennessee. With the opening date more than one month off, already all of the rooms in the boys' dormitory and a residence that has been added to the girls' hall have been reserved.

This will be the first year in the history of the institution that the college will accept none but full college students, with 15 high school units required for entrance. The school always has had an academy or preparatory department, but the growth, according to W. B. Campbell, president, has made that department unnecessary.

Prof. H. M. Ryles, of Clearwater, Fla., has been added to the faculty of the institution. He will have charge of the department of biology.

Plans for an enlargement of the institution contemplated an entirely new dormitory with not less than 150 rooms, an addition to the girls' hall and a new gymnasium. The additions will cost about \$250,000, Mr. Campbell said.

The college will open its football season with a game with Centre college the last of September or the first of October.

## CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Try Doan's Kidney Pills. Your neighbors recommend them. Ask your neighbors.

Mrs. Lucy Horn, B and Prather streets, Richmond, says: "I had a good deal of pain in my side and across the small of my back. My back was lame when I got up in the morning and I was so lame through my hips I couldn't do a thing about the house. When I stooped over my back hurt and I would get dizzy and fiery specks came before my eyes. I had heard so much about Doan's Kidney Pills that I got some at the Richmond Drug Co. In a few days the trouble left me. I think Doan's have cured me for I don't have these spells any more."

## BEARS HAND WACO NINE A WALLOPING

Tribble Knocked Out of Box But Metcalf Stops Local Sluggers To A Walk

The Richmond Bears defeated the Waco nine in a fast game on the Normal field Thursday by a score of 8 to 5. Charley Rogers pitched for the Bears and held Waco safe in all rounds except the first and fourth, when the Waco aggregation tallied twice in each of these innings. Rogers drove in three runs with a double and a single in four times up. He was held to a double on his long hit to left center in the third which would have gone for a home run but for the fast fielding of Jimmy Dykes, who played center field for the "enemy."

C. Tribble started in the box for Waco but was driven from the hill in the third inning, and was relieved by Metcalf, who shut the Bears out the rest of the way. If he had started, the result would probably have been different.

In the third inning the Bears had 11 men to face Tribble, six hitting safely, one getting on on an error, and one being hit by the pitcher. In this inning consecutive hits by Saunders, White, Rogers, Lackey and John Park, an error by Duerson, Barnett being hit by the pitcher and another hit by Saunders, completed the slaughter and the scoring of the Bears for the day. Saunders' two hits of the game came in this inning.

With Rogers in the box Waco was helpless and a promising rally was cut short in the ninth after Parrish had singled, by a double play, Rogers to Saunders to White. The next man was safe on an error, but he was cruelly abandoned at the halfway station as Rogers forced Covington to send an easy roller to the box.

Douglas Chenault played a fine game in left field, making two fine catches and handling all his chances with ease.

Let's hope the Bears will have the same luck against Berea on the Deatherage lot Saturday.

Summer Complaint  
Quickly Relieved  
"About two years ago when suffering from a severe attack of summer complaint I took Chamberlain's Colic and Diarrhoea Remedy and it relieved me almost instantly," writes Mrs. Henry Jewett, Clark Mills, N. ## TOURISTS ARE ANGRY Extortion Practiced in Paris Arouses Americans.

French Authorities Tell Them the Remedy Is in Their Own Hands.

Paris.—The effect of the high cost of living in Paris upon tourist trade, as indicated by the growing frequency of complaints of extortion by Americans visiting France, is occupying the attention of the government.

The authorities hold that the tourists have the cure largely in their own hands, exaggerated prices being due in large part to indiscriminate spending by visitors, aided by the spendthrift tendency of French profiteers.

It is admitted that abuses practiced in amusement resorts, where meals, wine and dancing are provided, have their effect upon prices in general, but how to correct that evil without discouraging the most profitable trade is a question.

Undersecretary of State Painsant, discussing the question with Americans, proposes publicity as a remedy. He has invited American visitors to join in a protest which will be published in the Paris press, and he also will take up personally individual cases of extortion brought to his attention.

The most frequent causes of complaint are charges for lodgings, in hotels and apartments. Mr. Painsant told the Americans he had decided to ask hotels to publish their rates in the papers. This remedy would not, however, affect apartments, which are the subject of profiteering on a scale hitherto unknown.

There are very few unfurnished apartments to let, according to the real estate agencies; as fast as vacated by tenants, they are transformed into furnished apartments and either let at rentals of from 200 to 1,000 per cent higher than the average before the war for furnished apartments of the same class, or rented at an increase of 200 to 300 per cent above the average for unfurnished apartments, with the proviso that the tenant buy the furniture at excessive figures.

## THIS MAKES MR. HAYS HAPPY

His Policy of Humanizing the Postoffice Department Results in Saving a Woman's Life.

Washington.—Postmaster Will H. Hays probably is the happiest man in Washington today. His slogan "Humanize the Postoffice Department" has been carried out to what appears to be the limit. Here is the story:

In a little Nebraska farmhouse a woman lay dying for lack of medical attention. The nearest physician was Dr. Selby at North Platte, True, North Platte was only two miles away, but between the dying woman and the physician was the South Platte river, flooded to a raging torrent that had swept away every bridge near and far.

Dr. Selby had telephoned to every town within a radius of twenty miles. At each turn it was the same disheartening story—bridges gone and no way of fording the turbulent waters.

Just when all hope seemed gone, Dr. Selby remembered something. Somewhere he had read that the postmaster general was "humanizing" the postoffice department. He rushed to the telephone and asked C. A. Sluder, manager of the air mail field at North Platte, to take him across the river in an airplane.

"Sorry," said Sluder, "but I couldn't without getting authority from Washington first."

"But the woman is dying," the physician urged.

"In that case," replied Sluder, "we will take you first and get the authority afterward."

So it was that the life of a woman in an humble Nebraska farmhouse was saved just because the postoffice department has been humanized. And so it is that Postmaster General Hays is probably the happiest man in Washington.

Baptists Elect Woman Leader.

Y., as president of the Northern Baptist convention, a precedent was set among the larger denominations of the United States. Coincidentally, the convention was presided over by a woman, Mrs. M. Grant Edmunds of Pasadena, Cal., after E. L. Tustin of Philadelphia, the president, had been stricken with illness.

## Heavenly Dust Cloud of Vast Bulk Is Found

London.—Dr. A. Pannekoek, a Dutch scientist, has been demonstrating the existence of an inconceivably vast object in the heavens. Its mass, he says, is 20,000,000,000 times greater than that of the sun. He calls it a celestial gas or dust cloud. Doctor Pannekoek says this huge body is situated in the constellation of Taurus and his estimate of its size is greater than many estimates of the combined mass of the whole universe itself.

THE UNIVERSAL CAR

"THE FORD COUPE"

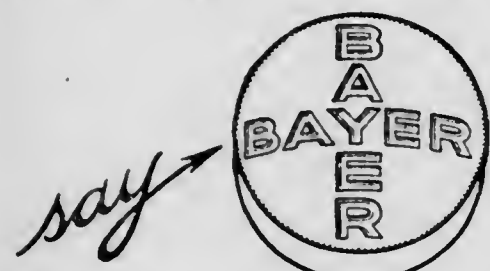

Here is one of the most useful of all closed cars. Specifically so when not more than two or three are to be accommodated with reliable car service. The Ford Coupe is a mighty cosy car, in that it is absolutely water-tight, at the same time with its sliding plate glass windows you can have an open car to all intents and purposes, in a couple of minutes. So it doesn't make any difference what the weather may be, rain or shine, summer or winter, in the Ford Coupe you have an enclosed car of comfort and service. What more do you want?

It has proven particularly a valuable car for traveling salesmen, physicians, engineers, architects, and others who have much out-of-door work all the year round. We have never been able to fully meet all demands for the Ford Coupe, but with the increased producing capacities of the factory we are now able to make reasonably prompt deliveries. Yet we urge you to leave your order with as little delay as possible—our allotment is limited.

## OUR APPRECIATION

We are truly grateful to the people of this section for the response they gave our Big Clearance Sale. You helped to make it the biggest sale event ever to take place in Richmond. People came from miles around to see if we were truly offering the bargains which we had advertised.

Did they find them? Well, if you had seen package after package under the arms of the many visitors you would certainly say YES.

Now we realize that Monday, Court Day, is going to bring a large crowd to Richmond, and we've decided to close our sale Monday night instead of Saturday as we first planned.

This will give a large number of people who only come to town on Court Day an opportunity to get some of the many bargains that we've been offering, and besides the counters will be replenished with stock and new bargains, so even if you have been to the sale, it will pay you to come again.

Help us make Monday the biggest sales day in our career.

Respectfully,

## MANY WOMEN SIT AND GROW OLD

Female Physician Tells Osteopathic Convention Something of Interest to Everyone

(By Associated Press)

Cleveland, O., July 29.—Too many women sit down and grow old, declared Dr. Frances Graves, of Boston, in a paper which she read today in the National Osteopathic Convention in this city. "Sit tall" is the remedy proposed by Dr. Graves, and she told the specialists how to do it. Dr. Graves said in part:

"It seems wise to instruct women that if they lead normal lives they may look forward to a normal middle life. It is not a normal life for a woman to settle down to sitting the greater part of the day. The normal life is not gained by too little or no exercises, and too much food. So many women sit down to grow old. They welcome old age long before they have any right to. Some of the medical textbooks tell us that at fifty old age has been reached, but I refuse to admit that. Do all women settle down into their bodies and grow heavy about the waist line, shoulders and neck? Is all this necessary? Most assuredly, no; not if the woman cares enough to prevent it, in other words, to lead a normal life.

"The great thing, if one would have a normal middle life, is to keep the circulation active. The whole body should be in perfect adjustment so that no undue strain is put on any one part. Regular and sufficient exercise must be taken every day that the patient is physically able. Sweats and starches should be practically eliminated from the diet. No sitting down for the afternoon with a book and a box of candy. No more protein than is needed to balance the diet. The diet should be rich in fresh fruit, green vegetables and raw foods. In short, the diet should consist of foods of such a type and in such quantities that the body may receive the required amount and no more. How many times have we heard some one say, 'Since I have stopped eating so much, I feel ten years younger.'

"There are two faulty types of posture which we see very often. First the slouch. The second common type of faulty posture is more often seen in heavy individuals. This is the exact opposite of the slouch. The individuals stand with the knees straight, the anterior lumber curve greatly exaggerated, the shoulders drawn up with the neck shortened. This type almost invariably has a large, pendulous abdomen.

"In sitting the individual should push as far back against the back of the chair as possible. That is all that is necessary. If that position is held and the individual 'sits tall,' she cannot slump without effort. We do not do unconsciously a thing which causes effort, so if this position is kept the individual will soon get so that correct posture is second nature."

### Bourbon County Livestock Sales

Cattle feeders of Bourbon county have sold several loads of heavy steers recently at prices ranging from 7 1-4 to 8 cents per pound. Many of these cattle were purchased a year ago for as high as ten cents a pound. Prospects for next winter's feeding look very good, because feeder steers can be bought in line with the prices received for fat cattle. At Mt. Sterling, Henry S. Caywood, of North Middletown, buyer for Swift and Company, Chicago, bought from Sharp Bros. of Sharpsburg, two hundred 1,350-lb. cattle at prices ranging from 7 to 7 1-2 cents per pound. Mr. Caywood also bought of B. T. Wright one hundred and thirty-four head, averaging 1,350 pound at 7 1-4 to 7 1-2 cents. W. A. Thomason purchased of A. B. Ratliff fifty 1,400 pound cattle at 7 3-4 cents per pound.—Bourbon News.

LaCenter, Ky., July 28.—The first shipment of lambs under the cooperative plan of the McCracken and Ballard county Sheep Breeders Association, left Kevil this week, consigned to a Louisville company.

The shipment, consisting of a car load of 78 lambs of average weight of 60 to 65 pounds, was the result of a demonstration begun in the early spring to demonstrate methods for improving and developing the sheep industry in western Kentucky. The breeders are highly pleased with the results, they say.

### Browns Win Sixth Straight

(By Joseph Fields)

The Richmond Browns, the crack local colored team, won its sixth straight victory at Greenland park here Sunday afternoon. The victims were the Lancaster Giants, and the score was 8 to 7. The game was very exciting throughout and kept the big crowd on edge all the time. At times it looked bad for the local boys but heavy hitting by Doty and Dunson did the work. Doty smashed out a home run and a triple. The score:

**105 ACRE FARM**

ON

**August 4th 1921**

AT

**10 A. M. RAIN OR SHINE ON THE PREMISES**

To divide the estate of the late Dr. John W. Maupin, the heirs there to have placed in our hands the farm containing 105 acres more or less, and situated on the Menalus pike, 8 miles south of Richmond, 7 miles north of Berea. This tract of land is bounded on the north by lands of Mr. John Hendren; on the south by the Menalus pike; on the east by Mr. John W. Ballard and on the west by Adam Smith, and one and one-half miles from two railroad stations—White's Station and Silver Creek—where you will find good schools, churches, stores, and a ready market for your local farm products; 6 miles from the thriving little town of Paint Lick.

### INSPECTION

The improvements consist of a very substantial brick residence of eight rooms, 2 halls and porches, beautiful lawn with plenty of shade, small orchard, good garden, cistern at door, and outbuildings. Fences good.

### DESCRIPTION OF LAND

This farm has long pike frontage on Menalus pike, and lays in almost a square; 35 acres under cultivation this year, the balance in blue grass sod, six acres in bottom land. The one thing about this land is that it is all good—no waste land. Every inch of this land will produce and produce sufficiently to net you an income, not just a mere living. When we say Good Land we mean Good Land, and there is none better than this. If you doubt this we can in 40 minutes prove to you we are right. There are 150 big walnut trees standing on this farm. That is a good indication of good land, well watered by Moore and Silver Creek.

Terms—10 per cent to be paid on date of sale; 23 1-3 at time of execution of deed, and balance in three equal annual payments, 1, 2 and 3 years, with 6 per cent interest and lien retained to secure the payments of same and the usual precipitating clause to apply. These terms are liberal; your opportunity to buy a farm and pay for it from the proceeds of your farm and you can do it with good land like this.

Possession will be given in thirty days, but the right of ingress and egress will be retained until the growing crops are disposed of, but the right will not be exercised to hurt of damage the purchaser.

### IMPROVEMENTS

By calling at our office we will be glad to show any prospective buyer over the farm before date of sale.

THE UNIVERSAL CAR

"THE FORD COUPE"

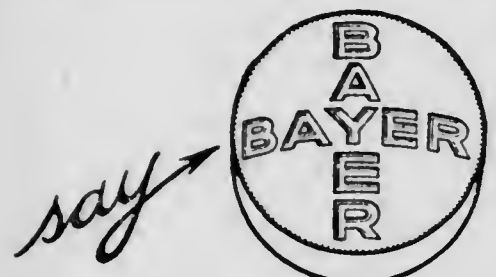

Here is one of the most useful of all closed cars. Specifically so when not more than two or three are to be accommodated with reliable car service. The Ford Coupe is a mighty cosy car, in that it is absolutely water-tight, at the same time with its sliding plate glass windows you can have an open car to all intents and purposes, in a couple of minutes. So it doesn't make any difference what the weather may be, rain or shine, summer or winter, in the Ford Coupe you have an enclosed car of comfort and service. What more do you want?

It has proven particularly a valuable car for traveling salesmen, physicians, engineers, architects, and others who have much out-of-door work all the year round. We have never been able to fully meet all demands for the Ford Coupe, but with the increased producing capacities of the factory we are now able to make reasonably prompt deliveries. Yet we urge you to leave your order with as little delay as possible—our allotment is limited.

## ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and doses worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturer of Monoaceticacidester of Salicylic acid.

Jimmie Bradley of Washington is the first boy to appear before a committee of congress. He made a plea before the house committee of the District of Columbia on behalf of 60,000 school children for an appropriation for the study of birds and trees in the Washington schools. Jimmie presented endorsements from President Harding, the American Forestry association and several senators. In the picture are: Jimmie, Representative Underhill, Judge Katharine Sellers of the Juvenile court and Representative Focht, chairman of the committee.

## OUR APPRECIATION

We are truly grateful to the people of this section for the response they gave our Big Clearance Sale. You helped to make it the biggest sale event ever to take place in Richmond. People came from miles around to see if we were truly offering the bargains which we had advertised.

Did they find them? Well, if you had seen package after package under the arms of the many visitors you would certainly say YES.

Now we realize that Monday, Court Day, is going to bring a large crowd to Richmond, and we've decided to close our sale Monday night instead of Saturday as we first planned.

This will give a large number of people who only come to town on Court Day an opportunity to get some of the many bargains that we've been offering, and besides the counters will be replenished with stock and new bargains, so even if you have been to the sale, it will pay you to come again.

Help us make Monday the biggest sales day in our career.

Respectfully,

**J. S. STANIFER**

## MANY WOMEN SIT AND GROW OLD

Female Physician Tells Osteopathic Convention Something of Interest to Everyone

(By Associated Press)

Cleveland, O., July 29.—Too many women sit down and grow old, declared Dr. Frances Graves, of Boston, in a paper which she read today in the National Osteopathic Convention in this city. "Sit tall" is the remedy proposed by Dr. Graves, and she told the specialists how to do it. Dr. Graves said in part:

"It seems wise to instruct women that if they lead normal lives they may look forward to a normal middle life. It is not a normal life for a woman to settle down to sitting the greater part of the day. The normal life is not gained by too little or no exercises, and too much food. So many women sit down to grow old. They welcome old age long before they have any right to. Some of the medical textbooks tell us that at fifty old age has been reached, but I refuse to admit that. Do all women settle down into their bodies and grow heavy about the waist line, shoulders and neck? Is all this necessary? Most assuredly, no; not if the woman cares enough to prevent it, in other words, to lead a normal life.

"The great thing, if one would have a normal middle life, is to keep the circulation active. The whole body should be in perfect adjustment so that no undue strain is put on any one part. Regular and sufficient exercise must be taken every day that the patient is physically able. Sweats and starches should be practically eliminated from the diet. No sitting down for the afternoon with a book and a box of candy. No more protein than is needed to balance the diet. The diet should be rich in fresh fruit, green vegetables and raw foods. In short, the diet should consist of foods of such a type and in such quantities that the body may receive the required amount and no more. How many times have we heard some one say, 'Since I have stopped eating so much, I feel ten years younger.'

"There are two faulty types of posture which we see very often. First the slouch. The second common type of faulty posture is more often seen in heavy individuals. This is the exact opposite of the slouch. The individuals stand with the knees straight, the anterior lumber curve greatly exaggerated, the shoulders drawn up with the neck shortened. This type almost invariably has a large, pendulous abdomen.

"In sitting the individual should push as far back against the back of the chair as possible. That is all that is necessary. If that position is held and the individual 'sits tall,' she cannot slump without effort. We do not do unconsciously a thing which causes effort, so if this position is kept the individual will soon get so that correct posture is second nature."

### Bourbon County Livestock Sales

Cattle feeders of Bourbon county have sold several loads of heavy steers recently at prices ranging from 7 1-4 to 8 cents per pound. Many of these cattle were purchased a year ago for as high as ten cents a pound. Prospects for next winter's feeding look very good, because feeder steers can be bought in line with the prices received for fat cattle. At Mt. Sterling, Henry S. Caywood, of North Middletown, buyer for Swift and Company, Chicago, bought from Sharp Bros. of Sharpsburg, two hundred 1,350-lb. cattle at prices ranging from 7 to 7 1-2 cents per pound. Mr. Caywood also bought of B. T. Wright one hundred and thirty-four head, averaging 1,350 pound at 7 1-4 to 7 1-2 cents. W. A. Thomason purchased of A. B. Ratliff fifty 1,400 pound cattle at 7 3-4 cents per pound.—Bourbon News.

### Cooperative Lamb Selling

LaCenter, Ky., July 28.—The first shipment of lambs under the cooperative plan of the McCracken and Ballard county Sheep Breeders Association, left Kevil this week, consigned to a Louisville company.

The shipment, consisting of a car load of 78 lambs of average weight of 60 to 65 pounds, was the result of a demonstration begun in the early spring to demonstrate methods for improving and developing the sheep industry in western Kentucky. The breeders are highly pleased with the results, they say.

### Browns Win Sixth Straight

(By Joseph Fields)

The Richmond Browns, the crack local colored team, won its sixth straight victory at Greenland park here Sunday afternoon. The victims were the Lancaster Giants, and the score was 8 to 7. The game was very exciting throughout and kept the big crowd on edge all the time. At times it looked bad for the local boys but heavy hitting by Doty and Dunson did the work. Doty smashed out a home run and a triple. The score:
